## Final seminar - Socially Just and Politically Robust Decarbonisation (JUSTDECARB)

**Date / Time:** Thursday 26 October, 13:00 - 17:00 CEST  
**Where:** Oslo Science Park, Meeting room Faros, 5th Floor

We hereby invite you to the hybrid closing seminar for the project [Socially Just and Politically Robust Decarbonisation \(JUSTDECARB\)](#), where we will present findings from our research.

JUSTDECARB brings together researchers within philosophy, economics, law, and political science across four countries (Austria, the Czech Republic, Norway, and the UK). The project explores two overarching themes:

1. Understanding the “winners” and “losers” from low-carbon transitions
2. Designing socially just and politically robust decarbonisation policies and processes

The seminar is divided into five sessions. You are welcome to attend a single, multiple, or all sessions, as you please.
